MEMORANDUM FOR SEE DISTRIBUTION

SUBJECT: Foreign Military Training at JMTC (Command Policy Letter 17)

1. References:

- a. The Arms Export Control Act (AECA), 22 U.S.C. 2751.
- b. Army in Europe Regulation 350-10, Allied and USAREUR Major Training Areas, 10 April 2003.
- c. Army in Europe Regulation 350-50, Combat Training Center Program, 15 May 2003.

2. Availability of Facilities. In order to make the world-class facilities at Seventh U.S. Army Joint Multinational Training Command (JMTC) available to other nations, and to foster opportunities for coalition and multinational training which will benefit all participants, the following policy for the use of JMTC facilities by foreign military units is established.

3. Scheduling JMTC Facility Use.

- a. The Commanding General, U.S. Army, Europe (CG, USAREUR) is approval authority for foreign military units desiring to train at the Joint Multinational Readiness Center (JMRC).
- b. As Commanding General of the Joint Multinational Training Command (CG JMTC) I am the approval authority for foreign military units desiring to train at the Grafenwoehr Training Area (GTA).
- c. Foreign military units desiring to conduct training at JMTC facilities (JMRC or GTA) will submit a request in writing to my G3 office, which identifies the facility for which use is requested, the size and type of unit (Infantry, Armor, Artillery, Aviation or combined arms), the maximum number of personnel expected to conduct training, at least two options as to when the training is desired and any special requests or operational requirements which may affect the training units' deployment to GTA.

SUBJECT: Foreign Military Training at JMTC (Command Policy Letter 17)

d. The G3 will determine if the requested facilities are available at JMRC or GTA during the time frames requested by the foreign military unit.

e. If the desired training facilities are available at GTA, I will approve the requested foreign use and notify the requesting country of the approval.

f. If the desired training facilities area available at JMRC, I will forward to the CG, USAREUR the request for use together with determination as to whether the requested facilities are available and make a recommendation to approved or disapprove the requested use. CG, USAREUR will approve the request foreign use and return the approval to me, and the requesting country will be notified accordingly.

g. Once foreign use has been approved, the foreign unit may commence direct coordination with the International Scheduler, International Military Training Branch, and Range Operations to make required deployment arrangements and coordination.

4. Costs of Training at JMRC and GTA. Units training at either facility will be charged the following costs.

a. **Billeting and Shower and Latrine Facilities.** Units training at GTA can sign for the use of permanent billeting and shower/latrine facilities. The cost for use of these facilities is \$8.00/day/soldier. Actual cost charged will be based upon the required daily unit strength report to GTA Range Operations.

(1) There is no charge for billeting if a unit does not choose to use permanent structure billeting at GTA. A foreign unit which elects to stay in field locations may sign for fixed shower and latrine facilities at GTA through which it can rotate its personnel at a cost of \$2.00/man/day.

(2) Should the unit desire to stay at field locations. USAG Grafenwoehr will contract for field latrines for use by the foreign unit. The costs of the contract will be determined on a unit by unit basis and the cost will be borne by the foreign training unit.

b. **Facilities Utilization Charges.** Cost for all training facilities will be computed based upon the incremental costs incurred as a result of the foreign unit's training. Incremental costs will be based upon, but not necessary limited to, the following expenses: electricity, water usage, heating fuel usage, refuse disposal, range utilization expenses (targetry, range manpower expenses, wash rack utilization, motor and track park usage, facility repair base necessitated by unit cause damage, environmental support required, dunnage disposal and small fuel spill remediation).

SUBJECT: Foreign Military Training at JMTC (Command Policy Letter 17)

c. Additional Charges for Additional Services. Separate reimbursement, based upon actual usage will be required for the following: Class I, II, IX, POL items, quartermaster laundry support, kitchen police support, medical/hazardous waste disposal and clean up of major spills or contamination sites, if the foreign training units elects to use any of these services.

d. Acquisitions and Cross-Servicing Agreements. All facility and services desired will be requested, provided and paid for in accordance with Acquisitions and Cross Servicing Agreements (ACSA) Orders between the United States and the nation requesting use of JMTC facilities.

e. Planning Cost. Due to the potential for sizeable variations in the actual facility utilization charges based upon numbers of personnel and the extent of facilities used, a planning figure of \$15.00/man/day will be used to develop a worst case Facility Utilization Charge estimate in preparation of the ACSA Order.

f. Billing. Billing to each nation for its use of JMTC facilities will be prepared using the actual incremental costs incurred during the training at JMTC facilities.

5. The policies stated in this Command Policy Letter shall be reviewed annually, but shall remain in effect until superseded.

DAVID R. HOGG
Brigadier General, U.S. Army
Commanding
